EDUCATION

National Institute of Technology Kurukshetra	2022 - 2026
Bachelor of Techchnology, Electronics and Communication	CGPA: 8.77
Oxford Public School, Uklana Mandi	2018 - 2019
Intermediate by CBSE Board	92.2%
Oxford Public School, Uklana Mandi	2020 - 2021
Matriculate by CBSE Board	94.2%

EXPERIENCE

Web Developer Intern, Maven Infos : dec 2023 - feb 2024
Student developer(part-time)

- Internship Experience : I worked on a real-world project ,'Hospital management',at Maven Infos, During this time, I learned teamwork, became more responsible in my work, and developed time management skills to balance college and my part-time internship.
- Module I worked on: Mongodb, Nodejs, express.js, React
- Project : Hospital management system - Growingdigital

Sun Robotics -: June 2024 - August 2024

- Applied extensive knowledge of electronics and communication engineering to analyze and improve project specifications, contributing to more efficient and accurate solutions.
- Led and executed rigorous testing protocols for both hardware and software components, identifying and addressing critical issues that enhanced the overall quality and performance of the projects
- . Applied extensive knowledge of electronics and communication engineering to analyze and improve project specifications, contributing to more efficient and accurate solutions.

PROJECTS

Animated website : Feb 2024

- **Project Lead:** Led the development of an animated clone website for Sundown, replicating the design and functionality of the original site.
- **Front-End Technologies:** Utilized HTML, CSS, and JavaScript to create a visually appealing and interactive web experience.
- **Responsive Design:** Ensured the website was fully responsive, providing an optimal viewing experience across various devices including desktops, tablets, and mobile phones.

Personal Portfolio : feb 2023

- Briefly describe the purpose of your personal portfolio (e.g., showcasing your skills, projects, and achievements).
- Highlight the technologies and tools you used to build your portfolio, such as HTML, CSS, JavaScript

Contact Manager app : june 2024

- Built a comprehensive contact manager application using React for the frontend and Node.js for the backend, demonstrating proficiency in full-stack development and integration of client-server architecture.
- Successfully developed and deployed a functional contact management system from scratch, which included features like contact creation, editing, deletion, and data persistence, reflecting strong skills in both frontend and backend development.

SKILLS

Languages: Basic Python, C++,JavaScript,
Frame Work: Html, CSS, JavaScript
Tech Skills: Data Structures and Algorithm (Solved 200+ questions), Object-Oriented Programming
Coursework: Computer Architecture, Digital design, Analog and Digital Communication, Digital Signal Processing
Tools: Git,Vs-Code ,Canva, Figma

ACHIEVEMENTS

Participated in workshop on Robotics and AI held at NIT kurukshetra

Contributed to design and technology projects within Microbus(Technical Society).

Participated in several Tech Events held in Tech Fest

Participated in Robo AI Workshop

POSITION OF RESPONSIBILITY

Head Cordinator of Microbus Jan 2023-present
Directed and Managed for various workshops and events, coordinating logistics, scheduling,held in NIT Kurukshetra
Successfully managed large-scale events, ensuring seamless operations and enhancing participant experience.
